

Smart Visits

Revolutionize your sales visits
with Artificial Intelligence

Imagine a world where your sales visits **are smarter, faster, and more effective**

With Smart Visits, you not only save time but also **maximize the impact of every interaction** with your clients.

Designed to **transform the way sales teams work**, our solution leverages Artificial Intelligence to help you achieve your goals.

With **Smart Visits**, the good becomes extraordinary

Enhance what you already know by enriching your daily routine with smart tools designed to **maximize your time**.

From manual
to automated

Transform planning into a seamless and agile experience.

From generic
to specific

Prioritize key clients with advanced criteria.

From data
to decisions

Turn information into concrete, strategic actions.

At Minsait, we understand that every second matters

Optimize your visit management

01

Time optimization

Save time on visit planning to focus on what truly matters.

03

Intelligent standardization

Align your sales team's processes to compare results and identify areas for improvement.

02

Enhanced accuracy

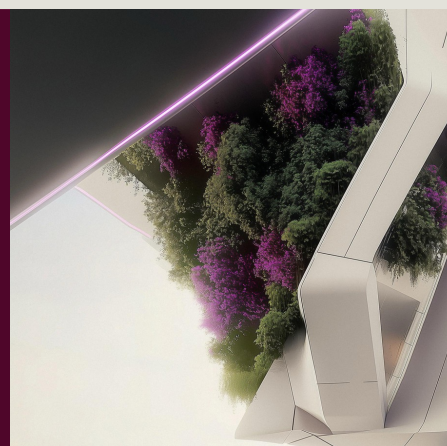

Prioritize clients with greater accuracy using data like orders, tickets, and preferences.

04

Increased sales

Free up time for action, leading to a significant increase in orders.

With Smart Visits, every sales representative has the tools they need to prioritize and provide each client with the attention they deserve at the right time.

Use Artificial Intelligence to analyze multiple variables and create prioritized visit lists, integrated with SAP Sales Cloud

Designed for companies looking to maximize the value of their existing tools.

If your sales team is already using SAP Sales Cloud, Smart Visits is the perfect ally to optimize visit management, identifying clients to prioritize in order to boost commercial impact and loyalty.

What makes it unique?

- Customizable AI-driven filters to fine-tune your client list.
- Automatic generation of visit schedules, fully integrated with your SAP solution.
- Tool customization according to needs to create opportunities, tasks, and automatic offers.
- Guaranteed compatibility with current and future versions of SAP Sales Cloud (C4C and v2).

Tech for impact

We connect talent,
technology, and business
to drive growth and
create positive,
sustainable impact.
