REPSOL AND MINSAIT AGREE TO MARKET A TOOL FOR SUSTAINABLE PROJECTS

Madrid, December 9, 2021. Repsol and Minsait, an Indra company, have signed an agreement to market a platform developed by the two companies to gauge the impact of organizations on natural capital.

The agreement was signed by Indra CEO, Cristina Ruiz, Luis Abril, the company's Managing Director, Luis Cabra, Managing Director of Energy Transition, Sustainability and Technology and deputy to the CEO at Repsol, and Valero Marín, Corporate Director of Digitalisation and Global Services for the multi-energy company.

This tool, known as READS, is a pioneering digital solution that can improve organizations' management by integrating the valuation of the natural capital (biodiversity, climate, water and social well-being) into the assessment of the operational impacts of their assets and businesses.

The tool also enables large international funds to incorporate the natural capital impact assessments into their investment decisions, at a time when sustainability criteria are gaining prominence in these decisions.

The methodology has been developed entirely by Repsol and overcomes the challenges posed by the energy transition, climate change and our commitments to sustainability and the environment, ones which are fundamental to the company's strategy.

Repsol is taking another step forward in its commitment to sustainability with the marketing of READS, which will be carried out together with Minsait, the project's technological partner. It will thus seek to help other domestic and international companies from various sectors and serve as a reference, enabling them to incorporate a renowned, benchmark and effective methodology into their activities while including sustainability as one of the pillars of their business.

About Minsait

Minsait (www.minsait.com), an Indra company, is a leading firm in digital transformation and Information Technologies. Minsait possesses a high degree of specialization and knowledge of the sector, which it backs up with its high capability to integrate the core world with the digital world, its leadership in innovation and digital transformation, and its flexibility. Thus, it focuses its offering on high-impact value propositions, based on end-to-end solutions, with a remarkable degree of segmentation, which enables it to achieve tangible impacts for its customers in each industry with a transformational focus. Its capabilities and leadership are demonstrated in its product range, under the brand Onesait, and its across-the-board range of services.

About Indra

Indra (www.indracompany.com) is one of the leading global technology and consulting companies and the technological partner for core business operations of its customers around the world. It is a world-leader in providing proprietary solutions in specific segments in Transport and Defence markets, and a leading firm in Digital Transformation Consultancy and Information Technologies in Spain and Latin America through its affiliate Minsait. Its business model is based on a comprehensive range

of proprietary products, with an end-to-end high-value approach and a significant innovative component. In the 2020 financial year, Indra achieved revenue totaling 3.043 billion euros and had nearly 48,000 employees, a local presence in 46 countries and business operations in over 140 countries.
